PROFESSIONAL SUMMARY

Full Stack Software Engineer with 3+ years of experience building scalable web and mobile applications using Next.js, NestJS, React.js, and React Native. As a Senior Software Engineer at Fortex Solutions, has led and delivered six full-stack and mobile projects spanning SaaS platforms, content platforms, B2B e-commerce, and enterprise systems. Skilled in managing the complete development lifecycle — front-end, back-end, and database design using PostgreSQL — with a strong focus on performance, scalability, and user experience. Most recently led the end-to-end development of a Qur'an-based learning platform, successfully launched on both the App Store and Google Play Store. Passionate about continuous learning, with a growing interest in Cybersecurity and Ethical Hacking.

TECHNICAL SKILLS

Front-end: React.js, Next.js, React Native, HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS
Back-end: NestJS, Laravel (PHP)
Mobile: React Native CLI
Database: PostgreSQL, SQL, TypeORM, Neon (Serverless PostgreSQL)
Languages: JavaScript, TypeScript, PHP, C++, C
Tools: Git, Docker, VS Code, Cursor, Virtual Box, Swagger/OpenAPI, Cloudinary
DevOps: Docker Compose, CI/CD (Vercel, Render), GitHub Actions
Cybersecurity: Ethical Hacking Basics, Security Fundamentals

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Fortex Solutions April 2023 – Present

Engaged as a Senior Software Engineer at Fortex Solutions since April 2023, delivering six full-stack and mobile projects for the company's clients, detailed below.

Project: Order Me — Restaurant Management & QR Ordering Platform Feb 2025 – Present

Role: Full Stack Developer (Backend & Web) | Client Project at Fortex Solutions | Live: order-me-omega.vercel.app

- Architected a multi-tenant SaaS platform for restaurants featuring QR-based ordering, POS, kitchen display systems (KDS), inventory management, and analytics serving four roles — Super Admin, Restaurant Owner, Chef, and Customer.
- Backend (NestJS, PostgreSQL, TypeORM): Built 20+ RESTful modules including JWT authentication with refresh tokens, role-based authorization, real-time order processing, POS cart & checkout, inventory (warehouse & kitchen), expense tracking, subscription plans, QR code generation, and analytics dashboards.
- Frontend (Next.js, TypeScript, Tailwind CSS): Developed role-specific dashboards with real-time order updates, drag-and-drop KDS, interactive analytics, and a complete POS interface with cart management, discounts, split billing, and payment integration.
- DevOps: Designed normalized PostgreSQL schema with migrations, configured Docker Compose, CI/CD pipelines (Vercel + Render), and integrated Neon serverless PostgreSQL for production.
- Created Swagger/OpenAPI documentation for 80+ endpoints; collaborated in a 3-member team using Git feature-branch workflow.

Tech Stack: NestJS, Next.js, TypeORM, PostgreSQL, Neon, Docker, JWT, Tailwind CSS, TypeScript, Vercel, Render.

Project: Hide Design — Premium Outerwear B2B Platform Jul 2026 – Sep 2026

Role: Full Stack Developer | Client Project at Fortex Solutions | hidesdesign.com

- Built a full-stack B2B web platform for a premium leather and long-coat manufacturer, serving as a digital catalogue, client inquiry system, and admin dashboard.
- Frontend (Next.js 14, TypeScript): Designed a responsive UI with custom CSS, dynamic product carousels, smooth scroll animations, and a 'Wholesale/Custom Sample' workflow for client order submissions.

- Backend (NestJS, PostgreSQL, TypeORM): Developed modular REST API covering Auth, Products, Quotes, Invoices, and Inquiries with two separate inquiry flows (Contact/Quote and Custom Sample).
- Admin Dashboard: Built secure admin portal with JWT authentication, full CRUD for products, image uploads via Cloudinary, and dynamic size/colour variant management.
- SEO & Performance: Configured dynamic sitemap.xml, robots.txt, and JSON-LD structured data; optimised images and routes for faster load times.

Tech Stack: Next.js, TypeScript, NestJS, PostgreSQL, TypeORM, Cloudinary, JWT, CSS Modules, Vercel, Render.

Project: Live with Quran (عش مع القرآن) — Qur'an Learning App Feb 2026 – Sep 2026

Role: Full Stack Software Engineer | Client: AL Noor Welfare Foundation | Client Project at Fortex Solutions

- Developed a cross-platform mobile app (Android & iOS) with Ruku-based Qur'an learning — successfully launched on both the App Store and Google Play Store (Beta).
- Implemented video, audio, quizzes, and exam features.
- Developed and managed the Admin dashboard using Next.js for content and user control.
- Developed back-end APIs using NestJS with PostgreSQL.
- Managed the complete full-stack architecture from development to production deployment.

Project: Ipsum Aug 2024 – Jan 2026 | Jul 2026 – Present

Role: React Native Developer | Client Project at Fortex Solutions

- Worked as front-end developer using React Native CLI.
- Built and maintained mobile UI with a focus on performance.
- Integrated APIs with back-end teams (Java & Laravel).
- Assisted in debugging and performance improvements.
- Re-engaged on the project from July 2026 to continue feature development and improvements.

Project: Tailor Application Jan 2024 – Jul 2024

Role: Full Stack Developer | Client Project at Fortex Solutions

- Developed a full-stack application using Next.js & NestJS.
- Implemented authentication and CRUD functionality.
- Managed back-end and database operations.

Project: Godwit (Hospital Management System) Apr 2023 – Dec 2023

Role: Software Developer | Client Project at Fortex Solutions

- Worked on a hospital management system.
- Built authentication and role-based modules.
- Assisted in back-end integration.

EDUCATION

BS Information Technology — Virtual University of Pakistan 2019 – Present

All coursework completed. Currently in Final Year Project (Thesis) phase.

Intermediate (ICS) — Punjab College 2017 – 2019

Matriculation — Allied School 2015 – 2016

CERTIFICATIONS

W3Schools Certification • SoloLearn Certification • Cisco Course Certification (CCNA: Introduction to Networks) • Zynex Solutions — Cyber Security Course

LANGUAGES

English, French, Urdu, Quranic Arabic
